Matthew Sweet, Underground

Me and my girl are going underground Got no time to tell you what we found People in this world aren't very kind And love is blind, love is blind

All we want is on our minds We don't have a map, we don't follow signs Seems useless for you to look for attack No tracking us down and no bringing us back

Me and my girl are going underground Got no time to tell you what we found People in this world aren't very kind And love is blind, love is blind

We are going very far You can't take a plane, you can't take a car Seems useless for you to look for attack No tracking us down and no bringing us back

All we want is on our minds We don't have a map, we don't follow signs Seems useless for you to look for attack No tracking us down and no bringing us back

Me and my girl are going underground Got no time to tell you what we found People in this world aren't very kind And love is blind, love is blind

Me and my girl are going underground Got no time to tell you what we found People in this world aren't very kind And love is blind, love is blind
