

Matthew West, You Know Where To Find Me

I saw your sky fall down today
Suddenly turn from blue to grey
Till one by one the raindrops
Turned to tears upon your face
Wish there was something I could do
Wish I could ease this pain for you
But I've never felt so helpless
It's like you're drowning right in front of me
And I'm reaching out but you can't see
There's something holding on to you so tight
So I guess this is all I'll say to you tonight

Chorus

If you ever need me
You know where to find me
I will be waiting where I've always been
If you ever need me
You know where to find me
I have never left you, I'm where I've always been
Right by your side
Right by your side

If the whole wide world is on your back
If the strength you need is the strength you lack
If you're in a crowd but all alone
If you can't stay here but you can't go home
If you can't answer all the why's
'cause you're too tired to reach that high
I want you to remember

Repeat Chorus

Bridge:

If the whole wide world is on your back
If the strength you need is the strength you lack
If you're in a crowd but all alone
If you can't stay here and you can't go home
If you can't answer all the why's
'Cause you're too tired to reach that high
I want you to, I need you to remember

Repeat Chorus
