

MaveRick, Lonely Star

Anytime you feel alone
Feel so sad down to your soul
Take a breath and look
At the widespread sky... widespread sky
Anytime you feel alone
Dont look back think that I want
Wanna be the number one to you
One for you
See you leaving... see you leaving
Its so hard for me can you feel It
Theres no stars tonight
See the brightness in you
You are my star, my lonely star
And I will shine for you tonight
Your sweet embrace, your smiling face
Risnin in you
You are my star, my lonely star
And I will shine for you tonight
Your sweet embrace, your smiling face
Risnin in you
Anytime you feel so far
Feel so sad down into your world
Take a breath and look
At the endless sky...endless sky
Anytime you lose the road
Dont look back trust what I mean
Maybe its our last while, me and you
Me and you
