

# Maverick Sabre, Open my eyes (piosenka z rekla

I opened my eyes and finally realized  
All this time I've been blind  
Walking this road it seems we all follow  
but it's so hard to change  
but it's so hard to change  
but it's so hard to change  
seems there's no way

I see so many die for it  
Cause we al run around these jungles living life correct  
There's no changes anymore but the way that it makes us  
Locks us ups everything becomes t hard to fight against  
Were all born in the belly of the beast  
Cause they teach you to reach for that  
But I didn't dream never speaking  
They say your words won't ever mean shit  
And people without a voice are just too easy
