

Max Drazen, Caffeine

Maybe this time it's over
You don't want to change and I don't either
It's no good when you're looking for reasons to stay
You think I'm stupid
Hanging out and smoking
While you go out and work a 9 to 5 everyday
Mmmmm
But every time we take a break and you say you needed some space
I say goodbye you hate the taste then call me in the morning
I guess I'll just come over
I'm not even sober and I haven't ate a thing
Mmmmm
I'm half asleep coffee got colder
while driving over so I've had no caffeine
Mmmm
Naaah aah
Naaah aah
I couldn't think it over cause I've had no caffeine
I've got excuses
Cause my room's a mess
My car's been dispossessed
Had no time to think it through
A loser
Always been second best
I wear it on my chest
While you sing "Thank You, Next"
But every time we take a break
Those other things take other space and I can't find a time to think
So call me in the morning
I guess I'll just come over
I'm not even sober and I haven't ate a thing
Mmmmm
I'm half asleep coffee got colder
while driving over so I've had no caffeine
Mmmm
Naaah aah
Naaah aah
I couldn't think it over cause I've had no caffeine
Naaah aah
Naaah aah
I couldn't think it over cause I've had no caffeine
