

Max, Ms. Anonymous (feat. Jared Evan)

The speakers were banging
In a crowded room
Was it that blue dress
That pulled me to you
We didn't say nothing
But our lips introduced
Knew there was something
And you felt it too

But you walked away
Didn't say your name
And I've been searching for you
You disappeared
Just left me here
And I've been searching for you

Ms. Anonymous
When I close my eyes
Feel your hips in my hands
Ms. Anonymous
I've got too far for just one more dance

You didn't need a tattoo
To get under my skin
Didn't need a gun
Coz I let you in
I let you in
Am I your hostage?
Coz I can't get loose
Thought you were falling, falling for me too

But you walked away
Didn't say your name
And I've been searching for you
You disappeared
Just left me here

And I've been searching for you
Ms. Anonymous
When I close my eyes
Feel your hips in my hands
Ms. Anonymous
I've got too far for just one more dance

I'd walk all through the rain
Just to know your name
Whatever gets me to you
And honestly
We'll make a great escape
Whatever gets me to you-ou

Ms. Anonymous
When I close my eyes
Feel your hips in my hands
Ms. Anonymous
I've got too far for just one more dance

Ms. Anonymous, je!!!!
