

# Maximo Park, Our Velocity

Im not a man, Im a machine  
Chisel me down until I am clean  
I buy books, I never read  
And then Ill tell you some more about me  
Beneath the concrete theres a sound  
A muffled cry below the ground  
There is a poison in the air  
A mix of chemicals and fear  
Manners are just hunches  
Im not sure what they mean  
Youre asking for commitment  
When Im somewhere in between  
Never, never try to gauge temperature  
When you tend to travel  
At such speed  
It's Our Velocity  
Is it cold where you are this time of the year  
You didnt leave a scar  
Ive seen that numbers hit a screen  
And youre expected to know what they mean  
Throughout the conflict I was serene  
I can't outrun the sadness Ive seen  
Are you willing to resist  
The people youve never met  
The devil's wheel revolves  
But it needs to be reset  
Never, never try to gauge temperature  
When you tend to travel  
At such speed  
It's Our Velocity  
Please tell me is it cold where you are this time of the year  
You didnt leave a scar  
Ive got no one to call  
In the middle of the night anymore  
Im just alone  
With these thoughts  
Ive got no one to call  
In the middle of the night anymore  
I'm just alone  
With my thoughts  
I watched a film to change my feelings  
Strong enough to bear a burden  
If everyone became this sensitive  
I wouldn't have to be so sensitive  
If everyone became so sensitive  
Perhaps I wouldn't be so sensitive  
Love is a lie, which means I've been lied to  
Love is a lie, which means I've been lying too  
Love is a lie, which means I've been lied to  
Love is a lie  
Ive got no one to call  
In the middle of the night anymore  
Im just alone  
With these thoughts  
Ive got no one to call  
In the middle of the night anymore  
Im just alone  
With my thoughts  
Never, never try to guage temperature  
When you tend to travel  
At such speed  
It's Our Velocity
