

Maxwell, Everything: To Want You To Want

Lay all night here on top if you want to
I'm giving all I've got every drop don't you want to

Minus my negative
Change what I thought I would never
Spoke a kiss verbal bliss
And I was made a much a mo' better

Cause where you touched was such a no-no
A blush filled plush I loved it oh so
I loved it oh so much - it's suiter than candy
Could all this lust be a symptom of you

Lay all night here on top if you want to
I'm giving all I've got every drop don't you want to
Everwanting to want you to want

Lay all night here on top if you want to
I'm giving all I've got every drop don't you want to
Everwanting to want you to want

Burn the cold take the snow
make July out of December
Light the night in after life
and make this soul a much mo' better

Cause where you touched how could you know
A blushe filled plushe I love it oh so much
Could all this lust be a symptom of you

Lay all night here on top if you want to
I'm giving all I've got every drop don't you want to
Everwanting to want you to want

Lay all night here on top if you want to
I'm giving all I've got every drop don't you want to
Everwanting to want you to want
