

Maxwell, Lock You Up N' Love Fa Days/

He told you stories he told you lies oh
He made you bend made you compromise
The light that lives way deep down inside
Brought you tears caused you fears
Love wasn't cool

You never knew about the others baby
He made you feel his love was real
But now you know that things are not that way
Come go with me baby
If it's alright with you

If it's alright ooh I wanna rock you/ I wanna rock with you baby
If it's alright ooh I wanna rock you/ I wanna rock with you baby
Lock you up N' love fa days

The way you move yo thing I just don't know
Takes no time to show my love will grow
I'm not afraid to let affection show
Come go with me baby
If it's alright with you

Make you feel so good inside

If it's alright ooh I wanna rock you/ I wanna rock with you baby
If it's alright ooh I wanna rock you/ I wanna rock with you baby
Lock you up N' love fa days
