

Maxwell, Suitelady

It's been so long since I have got you lady
Since I have had yo brown legs wrapped around me
The smell of she just drives me crazy
Imagine what the sight of her can do

1 - suitelady don't worry
Ain't no end to what this ring wants to begin with you
I've waited suitelady
Cause no man can tear asunder
What my can groove

I never thought myself the kinda guy

The kinda man that would ever want to settle down
Statistics say it's crazy, passion won't survive
But something says nawh deep down deep down inside

Repeat 1

Groove love can groove me and you awwhh
Suitelady

I don't mean to be dramatic baby
I only wanna understand you baby
So will you marry me?
