

Mburu Sheila, That Night

Lights dimmed, glasses down
Slow music tempting us closer
Hands touching, lips kissing
Hot bodies, melting together

Chorus

That night we were so close
That night I let my inhibitions go
That night the heat was rising
That night I'll never forget

Next morning, empty bed
I remember all the things you said
I'll never love you and leave you
I'll always hold you in my arms

Chorus

Three years later, baby in my arms
One night couldn't do much harm
All alone, bills unpaid
Yeah I'll never forget that night

Chorus

Trapped in a jail of regret
Serving a life sentence
of unwanted responsibility
That night, that very first time
Loving you was my only crime
