

Mc Erik And Barbara, Forever Friends

We know the story, my life is glory
But more things are changing, friendships are breakin'
I'm now hopin', that you stay forever by me
'cos I remember, what's happened to me

I know that you wanna do it too
Be my friend, 'cos I need you
I'm not a big star, I'm a man like you
So come to me, come
I tell you what I do
I have so many problems
I have so much to do
I have not enough time to be with you
Music is my life, but not one and only
Forever friends, so don't disappoint me

I live on the run
You think it's only fun
Why can't you see, that's not easy
Sometimes my life is hard to me my friend
I hope you understand the simply truth

That I need you is only what I wanna tell you
Sometimes my heart is sad too much for you
'cos I remember what's happened to me

Friends, friends will be the friends
I said I give you one more chance
To be my friend, be close to me
I need you so, can't you see
Please, believe me I'm sayin' truth
I wanna know, what you gonna do
If you take my words seriously
Forever friends
So don't disappoint me

I'm always on the run
I have so much to do
You must be the one, who will help me
When sometimes my life is hard to me my friend
'cos I remember, what's happened to me
