

# MC Lyte, For All The Years

I love is old school like Mary Jane  
Boston baked beans and candy canes  
Exchanged look on a number two train  
Run catch kiss sunshine or rain  
Jackson 5, Good Times and Jefferson  
Yeah baby, you know I liked it better when  
You lived closer but then you moved  
But that couldn't stop our groove  
My magic man, my Brooklyn boy wonder  
I rub your shoulders the pressure you was under  
Late night rides after sunrise  
Catch a flick or two and then back to bed side  
You in the bubblegoose me in the sheep skin  
Cold as hell back when it wasn't matterin  
Long as we were hand in hand you were my man  
And I'm your girl faith in all the world

[Chorus]:

This is for all the years you've been  
My companion as well as my best friend  
So tonight babe I'm givin you  
What you wants it's all yours

[Chorus 1x in the background]

Our love is like a Romeo and Juliet film  
So surreal but yet picturesque  
There were problems I can admit it  
But we handled it and still the candles lit  
So glad that we didn't just end it  
Cause now we real independents  
Who would have thought the cute little boy from down the street  
Would fall in love with me  
It's like a number one dream come true  
To have somebody you love love you  
And that's all that matters  
That we grow together make sure we never shatter  
You're the reason I live  
Because I want you to get all that I got to give  
Long as we're hand in hand  
You my man I'm your girl  
Ready to conquer the world

[Chorus]

Our love is mystical like galaxies you can't touch  
Around the world and back again I love you that much  
Our love is destiny like Bonnie and Clyde  
We'll die of old age side by side  
Throughout the days I remained truthful  
I keep it tight for you sexy and youthful  
I told my mom when our days are through  
If you have to go first bury me next to you  
What I feel is unexplainable  
I love you this ain't enough to say to you  
You've been there from the beginning to the end  
My companion as well as my best friend  
You got my heart now here's my life  
Yes I'm ready to be your wife  
From here on know that you're the one  
Anything that you want it's done

[Chorus]
