

McDonald & Giles, Suite In C

The sun shone 'til Turnham Green
I walked into a dream
What happened to that face I'd seen
Some pussy on her knee

She smiled at me and then
With the sun away she went
I knew I had to see her again
That girl on the DL train

I sped my way upstream
She played my tambourine
Severn Mansions I wrote the theme
Placed an ad in a magazine

We walked to the Serpentine
Shared the Sunday evergreen
She was my ballerine
A woman of seventeen

You want someone to make your life happy
Well here I am, here I am
You are the one to make my life happy
And here you are in my head
Ah

The sun shone 'til Turnham Green
I walked into a dream
Now I know what happened to that face I'd seen
Some pussy inbetween
Ow!

One sugar is all I need
You're my sugar and my cup of tea
You gave all your love to me
Now the sunshine is all we see

You and me and we don't mind the weather, babe
'Cos you and me are sitting in a rainbow
We'll be going on and on and on and on and on forever
Shine on, babe

Come along with me
We can have some tea
Brewed by me for thee, my love
Come inside, and you will see
Come inside, and you will see
