And Dougie
Welcome to your mission

I thought I saw something moving
Eyes in the dark
Under a cloud of confusion
They're gonna tear you apart
I heard that girls are from Venus
And that guys are from Mars
But in the end they all leave us
Once they've destroyed your heart

Looking in your eyes
I can see forever
I heard somebody saying
We're being hypnotised
And if it's true
Then I really think this could be

The end of the world
The Sky's falling down
So guys grab your girls
And spread the word around

I'd sell my soul to the Devil
If I had one to give
The line between good and evil
Is not a safe place to live
I guess that fate jogged the needle
As she was taking me in
But as the clock reaches zero, oh oh
I really think this could be

The end of the world
The Sky's falling down
So guys grab your girls
And spread the word around

Looking in your eyes
I can see forever
I heard somebody saying
We're being hypnotised
And if it's true
Then I really think this could be

The end of the world
The Sky's falling down
So guys grab your girls
And spread the word around

Oh, this is the end of the world
The Sky's falling down
So guys grab your girls
And spread the word around
