

McFly, I wanna hold U.

Tell me that you want me baby
Tell me that it's true
Say the magic words and ill destroy the world for you
Not before the broken hearted
Marching through the streets
Every cities burning to the ground under your feet
I wanna hold you
My skies are turning black
Feels like a heart attack
(And I) Do anything you ask
I wanna hold you bad
Melt the polar ice caps baby
Watch them flood the earth
Id do anything to show you what your love is worth
Won't you show me your devotion?
Heal my aching heart
It's like a neutron bomb explosion tearing me apart
I wanna hold you
My skies are turning black
Feels like a heart attack
(And I) Do anything you ask
I wanna hold you bad
Attention please, we interrupt this program, with some
disturbing news,
World wide evacuation, we're going to lose, we've pulverised the
nation,
I guess it shows that's just the love you do
I wanna hold you
My skies are turning black
Feels like a heart attack
Do anything you ask
I wanna hold you bad, bad, bad
Do anything you ask
I wanna hold you bad
