

McFly, Silence Is A Scary Sound

I look into the sky
And I have to ask why
She'd go and leave me
Oh why do feelings have to die?
Was it all just a sign?
Of what its meant to be

Well Im just too excited
The end of this can be sighted
She's over due for a break out
I better go she blows my brains out
Silence is a scary sound

Funny feeling happened today
Somewhere buried in the past
Didnt mean much. that much anyway
I know that love will never last

I'm torn up inside
Theres a hole in my mind
When youre not next to me
So I hope you choke and die
On every single lie look what you've done to me

Well Im just too excited
The end of this can be sighted
She's over due for a break out
I better go before she blows my brains out
Silence is a scary sound

Funny feeling happened today
So we'll bury it in the past
Didnt mean much that much anyway
I know that love will never last

Well Im just too excited
The end of this can be sighted
She's over due for a break out
I better go she blows my brain out.
Silence is a scary sound

Funny feeling happened today
Somewhere buried in the past
Didnt mean much that much anyway
I knew that love will never last
Funny feeling happened today
Somewhere buried in the past
Didnt mean much that much anyway
I knew the love would never last
