

McLusky, Dethink To Survive

Secret fuhrers got your tongue and bitches got your car
And if it wasn't for the '86 world cup it wouldn't have got this far
But she was un in de in re contrary pissed but almost right
If it wasn't for the snakes in cumberbunds it would happen every night

Dethink to survive

Cartoon monkeys got you hard, it must have been the hair
Though jive bunny stole your creative fire you really didn't care
She was un in re in de decided happy killing time
But there's an eight per cent chance that you know Charles dance
and you're no damn friend of mine

Dethink to survive
