

# McLusky, Forget About Him I'm Mint

everyone i leave seems to get away  
and everywhere i go i want to travel by rickshaw  
thorazine given in your food will stop the headaches  
but don't be fooled by what you leave me

everything depends on the getaway  
and everywhere i go i want to travel boogie-board  
thorazine given in your food will stop the headaches  
but don't be fooled by what you leave behind

everyone i know needs to get ahead  
and everywhere i go i want to travel by x-wing  
thorazine given in your food will stop the headaches  
but don't be fooled by what you leave me

everything i leave seems to get away  
and everywhere i go i want to travel on my man-legs  
thorazine given in your food will stop the headaches  
but don't be fooled by what you leave behind
