

McLusky, Forget About Him I'm Mint

everyone i leave seems to get away
and everywhere i go i want to travel by rickshaw
thorazine given in your food will stop the headaches
but don't be fooled by what you leave me

everything depends on the getaway
and everywhere i go i want to travel boogie-board
thorazine given in your food will stop the headaches
but don't be fooled by what you leave behind

everyone i know needs to get ahead
and everywhere i go i want to travel by x-wing
thorazine given in your food will stop the headaches
but don't be fooled by what you leave me

everything i leave seems to get away
and everywhere i go i want to travel on my man-legs
thorazine given in your food will stop the headaches
but don't be fooled by what you leave behind
