

Me And My, Can't Forget The Past (Da Dap)

Since that day I left
Everythings the same
Im trying to forget
All the hurt and pain

I know that you say
Im the one with all the problems
I know that you say
Im not fair to you
But what did you expect me to do

I cant , I cant forget the past
Its just too much to ask for
I cant believe you chose her over me
My mind tells me to be strong
Im trying to move on
But all I see is what we used to be

Da Dab

Guess who said "hello"
When I called your home
I guess you didnt know
That I was on the phone

I know that you say
We're supposed to be together
You know that I say
How can you stay
Leave her, just walk away
Before its too late
