Meat Beat Manifesto, God Od

It's genocide, can't you see? A genocide in the first degree You know it's a mad, a mad mad world Don't give damn if you don't believe me! I've seen the light, and I like what I've seen These creaturs don't worry you Let's go there, just you and me Across The Universe, higher and higher I'm feeling good, now know what I mean? Don't you try to touch me! Hey! People! Are you coming back, huh?! Back? They've got to come in before It's blown away, the raid; their in the air It's crazy, it's out of hand God O.D. is run through my head There's nothing on Earth could move me Hundred miles an hour, seven days a week Don't you want to feel it breaking your back 'Cause the Word of The Lord makes me break out screaming: "Storm the studio!"

It's genocide, can't you see? A genocide in the second degree No dignity, I'm walking on your face! You're not moving!? Take to take, no time to waist Tearing it all, giving it all, giving it all away You're feeling good Picking it up, you're feeling good Put it to the back of your mind, for the time's not right I'm gonna make you scream! Coming from the back of your mind You can't forget all the times That yo've been punched to get the grade in Blown away by the force of the word Woken up by the sound of siren Yeah! Yeah! I said: " Yeah!" (I feel it coming on!)

It's genocide, can't you see?
A genocide means nothing to me!
Put it to the back of your mind for the time is right it's time to scream!
Boy!
From time to time you're gonna get this feeling Can't stand the pace
You've gotta give it a freak base
Time and again you'll be reeling!

(repeat with whispering voices)
