Meat Beat Manifesto, What's Your Name?

Operator get me through
Operator get me through
Got to get me through to you, to you
can you see them, they all look the same
did you hear them they cried out your name
Can you feel them they're dying in shame
they're dying in shame
they're dying in shame
they're dying in shame
Operator get me through

Got to get me through, to you
Operator get me through
destination the common view
the common view
the common view
What's your name?
What's your name?
What's your name?
What's your name?
