

Meat Loaf, Amnesty Is Granted

Love's an hourglass
It goes out wide the comes in closer
Time ticks away
Drifts away leaving empty sanded shoulders
Who said that love could last forever
Oh, I'm growing tired of feeling like I do

As we drift apart
Little secrets come between us
As we sail away
Feelin' comfort in the distance
You said that love would forever
Oh but neither one of us will ever surrender

There's a time
There's a place
A change of heart
About face
This is about love
It's about forgiveness

Tell me now, tell me like it is
You don't have to give
Amnesty is granted
What's done is done, for everyone
Come on bay let's start again right now
Amnesty is granted

You said that love would last forever
But neither one of us will ever surrender

There's a time
There's a place
A change of heart
About face
This is about love
It's about forgiveness

Tell me now, tell me like it is
You don't have to give
Amnesty is granted
What's done is done, for everyone
Come on bay let's start again right now
Amnesty, amnesty, amnesty is granted
