

# Meat Puppets, Were Here

Mother master, some things must be  
Plastic master, this is for free  
You give off a dark  
Seems larger than life  
Violet eyes  
Plastic master, smoke drifts from a rose  
Timber empire, able to explode  
Cut open the box  
Out rushes the night  
Violet eyes  
Plastic baby,  
Rope drifts through open holes  
Robot Kingdom, fables will explode  
Cut open the box  
Out rushes the night  
Violet eyes
