Media Lab, Come Alive

Letting go, nothings what it seems and I'm feeling hollow From my eyes I bleed Nothings real - everything I feels becoming borrowed Come alive Rise up - all alone Rise up - feeling hollow Rise up - bleeding sorrow Rise up - lift your eyes Rise up I can feel you breathing, leave me screaming Rise up I can feel you breathing All alone, dreaming isn't real and I'm bleeding sorrow, everything is grey Lift your eyes, take my hand and rise into tomorrow Come alive Rise up lift your eyes and Rise up come alive Rise up your not forgotten What you stood for
