

Media Lab, Embers

Break me, release me, take my soul away, your blinding everything
Smiling, I'm crying, running through my veins, erasing everything
Now everything is grey, ashes blown away
I'm drifting further everyday
Reliving hell everyday, everyday, come on and make me fall, fall, fall
Embers burning away
Use me, abuse me, controlling night and day, releasing all my pain
Dying, I'm falling into this hell again, take over me my friend
I can feel you pulling - I cant feel my soul
