Media Lab, Embers

Break me, release me, take my soul away, your blinding everything Smiling, I'm crying, running through my veins, erasing everything Now everything is grey, ashes blown away I'm drifting further everyday Reliving hell everyday, everyday, come on and make me fall, fall, fall Embers burning away

Use me, abuse me, controlling night and day, releasing all my pain Dying, I'm falling into this hell again, take over me my friend

I can feel you pulling - I cant feel my soul
