

# Media Lab, Our Summer

Can you now feel the cold  
Can you feel my heart freezing  
You left me here to die alone  
In winters ice  
Memories of the sun and you smiling  
Winters set, you're gone, someone save me  
Remember  
Our Summer  
Frozen tears bleed from my face  
You're never coming home  
Summers gone the ground is cold  
And I miss you  
Summers gone  
Summers now through, I cant unfreeze you  
Leave me here dying, summers gone, I cant breath
