

# Medicine, A Fractured Smile

i've played with love and been burned every  
time. and that's the way it goes  
as i lean close to you. it's reaching out that  
rhythm makes me sick. with head in hands and  
hands on hips. you'll never  
know what i need  
cause no words pass  
through tightened lips  
i don't ever make it easy to  
lay between my hips

it's just a small thing  
calling down the rain  
i've tried to make it easy  
to live inside my pain  
i scoff at love and then sweat through the night  
'cause i like what i see  
i love the laugh torn from your side  
pressing on top of me

i try to make it easy  
to live inside my brain

it's just a small thing  
calling down the rain  
i've tried to make it easy  
to live inside my pain  
it's just the small  
things that bring  
you to mind. a  
fractured smile and  
butterfly kiss. so kiss  
me now and kiss  
me sweet. i've never  
know it to be quite  
like this. i try to  
make it easy to live  
inside your kiss
