

Medicine, Babydoll

Don't cry melt your eye
'Cause you're too high to wonder why
Your plastic eye, fixed smile
And always nice but all the while

Chorus:

And you keep coming like a babydoll
Always crying like a babydoll
Teeth are white just like a babydoll
You are wise like a babydoll
About as real as a babydoll

It's alright in my mind
'Cause you're alive in my mind
You'll never find another bride
'Cause you're too high all the while

Chorus

I'll try you'll try you'll try I'll try
I'll try you'll try you'll try I'll try

Chorus

It's alright in my mind
You were alive in my eyes
