

# Medicine, Never Click

It's too late to call a doctor  
I know something you don't know  
You have swallowed something awful  
I know something you don't know  
It's too sad to watch a feeling  
Disappear from sight, you know  
It's too late

Chorus:

Leave this house don't be slow  
I know something you don't know  
Leave this house and make it quick  
Well never click

If you know the sickness started  
It's a crime to hold it in  
If you know your hearts deflated  
It don't wash to hold it in

Chorus

It's too late  
It's too late
