

Medicine, Seen The Light Alone

we don't know where to go
it's not the right thing
i've seen the light alone

filled with nothing to carry very far
when my heart's exploding

it's not too far to go
to see it my way

filled with nothing to carry very far
when my heart's exploding
i'm too far gone to hear you anyway
when you're crying in your sleep
it's not my mind it's only me

it's not too far to see
