

Medicine, Something Goes Wrong

I could stay away so long
That you'd never find me
I could stay inside my house
And hope you'd never find me

Chorus:
When something goes wrong
I hide it in my head
When something goes wrong
You won't find me

If you stay away so long
I am bound to forget you
If you stay inside your house
I won't darken your doorstep

Chorus

I could stay away so long
That you'd never find me
I could stay inside my house
And hope you' never find me

Chorus

When something goes wrong
I try to hide it inside my head
When something goes wrong
