

Megadeth, Vortex

Internal combustion
Multiple personalities
Terror inside of me
A mask of silent agony

Curse the falling rain
The vortex of pain

As medieval as Merlin
A pact for power that was made
Lucifer in transition
It's time the price was paid

Scorching the domain
the vortex of pain

A telstic message
Written in torment
Howl out dirges
Like the whores of Jericho
Distorted faces
Writhing in rage
Walls of purgatory
Tumble down
Endless death
The jewels of a crown
