

# Megadeth, Vortex (instrumental)

Internal combustion  
Multiple personalities  
Terror inside of me  
A mask of silent agony

Curse the falling rain  
The vortex of pain

As medieval as Merlin  
A pact for power that was made  
Lucifer in transition  
It's time the price was paid

Scorching the domain  
the vortex of pain

A telstic message  
Written in torment  
Howl out dirges  
Like the whores of Jericho  
Distorted faces  
Writhing in rage  
Walls of purgatory  
Tumble down  
Endless death  
The jewels of a crown
