

# Meganoidi, Inside The Loop

It seems that you never forget that your burnt tree always leaves you clean my friend  
It seems that you wont ever care if someone could smell something burning throw the choking air  
Come on  
It seems that you are really proud of your brand new face that can hide your dirty hands  
It seems that you are really proud of your slimy tongue that repeats Im really proud

And now the line has grown  
And now the line has grown  
Between the different lines the partys over quitting old accords  
6... 5... 4...  
3, Wake up! Youre running late  
2, The lights are now turned off  
And 1, The street is like a snake  
He knows the secrets of the rock

In-side the loop  
Ive got to find the way to get outside  
And as Im leaving my view changes the shape of the block  
The truth is in the eyes, the truth is in the eyes  
It doesnt look the same

Once upon a time I used to say  
Bliss is a sort of compromise  
But I was wrong  
cause I catch my breath just when I run

And now the line has grown  
And now the line has grown  
Between the different lines the partys over quitting old accords  
6... 5... 4...  
3, Wake up! Youre running late  
2, The lights are now turned off  
And 1, The street is like a snake  
He knows the secrets of the rock

In-side the loop  
Ive got to find the way to get outside  
And as Im leaving my view changes the shape of the block  
The truth is in the eyes, the truth is in the eyes  
Running away from the loop

And Ill come back to talk about a lonely love  
Soon as soon as possible first Ive got to solve a problem  
Burning, burning like a fire
