

Meghan Trainor, Blink

I'm an eclipse
I'm a shooting star
I'ma you come quick
then I break your heart
watch out,
watch out for me
I am smarter than you think
I m crazy but I am sweet
you'll see

there ain't nobody like me
so why don't we dance?
don't miss you chance

better not blink
you better not blink, blink
better not blink
cause you don't wanna miss this

better not blink
you better not blink, blink
better not blink
cause you don't wanna miss this

the only one left
they don't make 'em like this
I'm an innocent bad bitch
so don't even wink
watch out
watch out for me
I am stronger than you ythink
I m crazy but I am sweet
you'll see

there ain't nobody like me
so why don't we dance?
don't miss you chance

better not blink
you better not blink, blink
better not blink
cause you don't wanna miss this

better not blink
you better not blink, blink
better not blink
cause you don't wanna miss this
