Meja, Luxury

Who's giving you luxury

It's funny how circumstances Takes control Taking you places with your Mind and soul Like springtime makes me feel better Taking me higher Feeding my fantasy

(And it feels so good) Yeah, it feels so good

Giving you luxury It comes naturally So baby don't thank me I thank you And it's so plain to see Who's giving you luxury

Sit back and relax, just enjoy the ride Forget about all the messed up Things outside Like friendship, diggin' on deeper Taking us higher Feeding my fantasy

(And it feels so good) Yeah, it feels so good

I'm giving you luxury It comes naturally So baby don't thank me I thank you And it's so plain to see Who's giving me luxury

(Open you eyes to see) This world is turning round, round.... (We all making history) How precious time is now You're feeding my fantasy

I'm giving you luxury It comes naturally So baby don't thank me I thank you And it's so plain to see Who's giving you luxury

So baby, baby I thank you And you thank me And it's so plain to see Who's giving you luxury Who's giving you luxury
