

# Meja, Seven Sisters Road

The footlights are fading  
The last note is playing  
And all the balloons are falling down  
Here on the inside  
Where I go to hide  
I'm not only who they see  
Cause that is just another part of me

I wanna go home  
Starting all over  
It's been a long hard trip  
And my soul is cold  
I wanna go home  
With the sun on my shoulder  
I'm going home  
On the Seven Sisters Road

One day I'm a dreamer  
A sweet-dream believer  
Then I'm as grounded as a tree  
One minute I'm wisdom  
So full of decision  
The next I'm a river running free  
Depends on who I wanna be

I wanna go home.....

On 7 different places  
I am 7 different faces  
Say can you find the heart of me

I wanna go home

I wanna go home  
Starting all over  
It's been a long hard trip  
And my soul is cold  
I wanna go home  
With the sun on my shoulder  
I'm going home  
On the Seven Sisters Road  
I'm going home  
On the Seven Sisters Road  
I'm going home  
On the Seven Sisters Road
