

Mel C, Independence Day (Original Version)

I'm not thinking about ya
I'm happy without ya
No matter what they say
This is my Independence

They say it's a small small world
But you're a million miles away
Wishing on that same bright star
I shouldn't wish my life away
Without you the night still falls
And I know the sun will rise
The truth is that life goes on
Sure as oceans pull the tide

We've got forever baby
We just haven't got tonight
Aww baby!

Not thinking about ya
I'm happy without ya
No matter what my friends say
You're not my one and only
I ain't feeling lonely
This is my Independence Day
My Independence Day

I guess we've made mistakes
And we'll just have to live and learn
Cause I've got no regrets
It doesn't mean that I don't burn
The sands of time still fall
No matter what they say
Too many sad goodbyes
I can't dwell on yesterday

We've got forever baby
We've got as long as it feels right
Aww baby!

Not thinking about ya
I'm happy without ya
No matter what my friends say
You're not my one and only
I ain't feeling lonely
This is my Independence Day
My Independence Day

Heyy my Independence Day

No matter what comes my way
I'm gonna live for today
This is my Independence Day

Awww yeah yeah

Not thinking about ya
I'm happy without ya
No matter what my friends say
You're not my one and only
I ain't feeling lonely
This is my Independence Day
My Independence Day
No matter what comes my way
My Independence Day

Wishing on that same bright star
I shouldn't wish my life away
Wish my life away
They say it's a small small world
They say it's a small small small small world

Happy without ya
No matter what my friends say
You're not my one and only
I ain't feeling lonely
This is my Independence.
