Mel Carter, Feel The Sun

These thoughts can be evil and they often deceive Gotta believe that I can overcome My fears are the worst and they always return I never learn Feel like I don't belong Lost in the wreckage of a million bad dreams Hard to function, I just need some routine God, it's obscene When did they stop the fun?

I knew that something must be done To save the person I'd become That's why I had to run away

Feel the sun
Waves crash like my emotion
Life has begun
Now I will be safe from the storm
I found the one
This angel's my salvation
I'm feeling strong
You will be there if I fall

Guilt is no use it will tarnish your soul Just let it go The battle will soon be won Cold in the shadow of who I should be There's a fire burning deep inside me Helping me see, only I hold the key

And now I stand here unafraid Proud of everything I've made That's why I had to run away

Feel the sun
Waves crash like my emotion
Life has begun
Now I will be safe from the storm
I found the one
This angel's my salvation
I'm feeling strong
You will be there if I fall

There's so much energy At last I can be free I am the person I was looking for

Feel the sun
Waves crash like my emotion
Life has begun
Now I will be safe from the storm
I found the one
This angel's my salvation
I'm feeling strong
I'll never fall
You are there when I call
