

# Mel Tillis, Cling To Me

Keep the cold lonely world to my bedroom for a while  
Sit here beside my and let me see you smile  
For when I'm alone minutes are eternity so for a few fleeting moments cling to me  
Cling to me and let the sunshine of your sweet love come in  
Before I remember what a fool I have been  
Even though we have started a love that just can't be  
For a few fleeting moments cling to me  
[ guitar ]  
Cling to me and let the sunshine...  
For a few fleeting moments cling to me
