Mel Tillis, Come On And Sing

Come on and sing girl sing boy sing a happy song
Come on and sing girl sing boy this old world may not last long

Most everybody's doin' too much fighting and there's not enough singing going on
How many people have you ever seen fight while they were singing a song
Come on and sing...

Most everybody's mistreating one another just fight a personal game
But that wouldn't happen to the sisters and the brothers
When they hold back their heads and sing
Come on and sing...
[ac.guitar]
Most everybody's doin' too much talking talking and they just get mad
So if all that talking's gonna make you unhappy why don't just seeing be glad
Come on and sing...
