

Mel Tillis, Guide Me Home My Georgia Moon

Guide me home my Georgia moon

Well I left my home in Georgia caught the lights of New York town

But my pockets soon were empty now my luck it sure is down

I'm looking at that southern moon through the glow of neon lights

If that Georgia moon will guide me then I'm on my way tonight

Guide me home my Georgia moon to the one that I love so

Cause from her arms I won't be leaving soon guide me home my Georgia moon

[steel]

Well it's a long long way to Georgia just a few steps at a time

But I'm walking on down that highway towards the Mason and Dixon Line

My stomach sure is empty it ain't had a thing in days

But the Georgia moon keeps shining and I'll be there in a day

Guide me home...

Guide me home my Georgia moon
