

# Melanie Blatt, I'm leavin

I loose my cool every once in a blue moon  
Leave a girl stranded in a hotel room  
Cause aint nothin worse than flurtin and teasin  
Try to lift her scirt (Im a virgin) Im leavin  
You a virgin? You know you do this often  
Your pink so theef you could drown a school of dolphins  
Its like every MC she done did it, Redman, Catlow, Weasey done hit it  
Even the boys from the beastie done did it  
Little seasoned R&Bs singers split it  
Rumour has it from word of mouth  
That your things more dirty than the dirty south  
And I keep my little chicks screamin out:  
Here dog bust his ears unless you look like Nia Long  
So you girls come jump in my ride  
and all your buffalo gals go around the outside.

## CHORUS

Im leavin, think to take the blame  
You said the same and nothings ever changed  
Sorry baby, knew Id blow your brains  
I put my love till you started acting strange  
I never thought that I, would be with such a guy who only cheat and lie  
She fell in love wit a star, the life, the car  
The "HUH, HUH, HAH!!"  
Open like what wit a butt like Kim  
When I seen it, it made me wanna nut right then  
Yo, we got fly, we talked, she stopped by  
Lit the choc' lye, and passed it clockwise  
Let me knock the boots, til I was cock-eyed  
And now she tryna act like she ain't got time  
I told her, think of this before you try to be foul  
There's ladies at the bar that could be buyin' me rounds  
And all type models that be eyein' me down  
I stay and you say good-bye to me now?  
Fuck that, diss me, that's what's up here  
You better get ya fat ass back up stairs  
And if you try to creep, I'mma tie you in the basement  
Catch ya little boyfriend and beat his little face in

## CHORUS

Now all my sisters in the place no matter what the race  
We share our common cause  
Everything be everything be treated by a queen till we give up the drawers  
Now just when I thought everything was cool  
That her brother even had a key  
I said Id let him use the car then he took it too far  
Brother out there cheating on me.  
Time to face the truth when I really didnt wanna  
How the hell all these niggas be getting my number,  
Who was it, a kissing cousin came to see you in prison.  
They saying you already had a visit  
Leavin with these strangers, how do you explain this?  
Came this close to lettin you put it in my anus!  
Waking up, middle of the night, brother out  
Time to get this stepping back to your mothers house  
Im Leavin.

## CHORUS

Im leavin, Im gone, Im leavin  
Baby Im leavin, Im gone, Im leavin  
Im leavin, Im gone, Im leavin  
Baby Im leavin, Im gone, Im leavin  
Im leavin, Im gone, Im leavin Baby Im leavin, Im gone, Im leavin... CHORUS (x2)
