

Melanie C, Little Piece Of Me

I can see you think that you're the one

I could fall for you but I wouldn't waste my time

I should be less cynical but I've heard it all before

I know exactly what's on your mind

All you want me to be is a little souvenir

Of a night that you won't even remember

It's not because I'm worth it

Not 'cause I deserve it

You just wanna get your hands on a little piece of me

It's not because you feel it

Not because you really mean it

You just wanna get your hands on a little piece of me

Don't think that I'm unapproachable

Playing games with you 'cause I wouldn't waste my time

I could be less cynical but I've heard it all before

Every single word of every line

All you want me to be is a little souvenir

Of a night that you won't even remember

It's not because I'm worth it

Not 'cause I deserve it

You just wanna get your hands on a little piece of me

It's not because you feel it

Not because you really mean it

You just wanna get your hands on a little piece of me

But I don't wanna be

Something you can talk about

That's something I could do without

I'm not like you

I can't fake it the way you do

You say you want me, well if it's true

It's not because I'm worth it

Not 'cause I deserve it

You just wanna get your hands on a little piece of me

It's not because you feel it

Not because you really mean it

You just wanna get your hands on a little piece of me

It's not because I'm worth it

Not 'cause I deserve it

You just wanna get your hands on a little piece of me

It's not because you feel it

Not because you really mean it

You just wanna get your hands on a little piece of me

Yeah yeah yeah yeah
