Melanie C, Lose Myself In You

So many times I can hear you by my side But you seem so far away In my mind In my heart If I could only find the words to say Little voices Whispering choices Telling me where I went wrong

I can see easily Come on baby, come on, come on

Find a better way To communicate Stay a little while Stop and listen to me Anything you want I will do for you Words are meaningless When I lose myself in you

(When I lose myself) When I lose myself in you (When I lose myself) When I lose myself in you

I'd rather leave The past behind Don't wanna talk about it no more Put it down To history What we did, we said before When I gaze Into your eyes Will I see my future there

Shining bright, harbor light Come on baby, I'll take you there

Find a better way To communicate Stay a little while Stop and listen to me Anything you want I will do for you Words are meaningless When I lose myself in you

(When I lose myself) When I lose myself in you (When I lose myself) When I lose myself in you When I lose myself in you

Ba-da-da-da Ba-da-da-da Ba-da-da-da Ba-da-da-da Ba-da-da-da Ba-da-da-da Ba-da-da-da Ba-da-da-da Find a better way To communicate Stay a little while Stop and listen to me Anything you want I will do for you Words are meaningless When I lose myself in you
