

Melanie Doane, I Can't Take My Eyes Off You

So dear to me
always keep me company
who needs to go outside
I will be your silent bride
i can't take my eyes off you
Nothing ever needs to be said
Send your message right into my head
You fill me up when I'm alone
So soothing is your monotone
I can't take my eyes off you (x 4)
So maybe you're not as real as the others
But i choose you over all my past lovers
They have come and they have gone
But I can always turn you on
I can't take my eyes off you
