

# Melanie Garside, All Right (Build Me A House)

build me a house where i can stay  
build me a house where i can dwell  
there i can keep my secrets safe  
of all of the traits that i hide from myself  
i don't know if i think i'm all right  
i hang around with the rest  
i think that you can collect what you need  
hold on hold up wait there  
hold on hold up wait there  
now that you think that you've got it all straight  
answer the questions before it's too late  
you hide in the tunnel like rodent gone wrong  
you know all the answers but still you sing along with the rest  
i don't know if i think i'm all right  
i hang around with the rest  
i think that you can collect what you need  
hold on hold up wait there  
hold on hold up wait there  
do you see when you get close up? do you see?  
in the mirror of the eye of the time you spent  
pass you by of the time you spent gone  
do you see what you want to see? do you see?  
build me a corner of where i think suits  
know all the answers them trivial pursuits  
follow the tunnel back to light again  
wait on the first thought circle again  
i don't know if i think i'm all right  
i hang around with the rest  
i think that you can collect what you need  
hold on hold up wait there  
hold on hold up wait there  
hold on hold up wait there  
hold on hold up wait there  
hold on hold up wait there  
build me a house
